ECONOMIC DEVELOPMENT ADMINISTRATION

Fiscal Year 2019 Annual Report

U.S. DEPARTMENT OF COMMERCE

Dana Gartzke

Performing the Delegated Duties of the Assistant Secretary of Commerce for Economic Development

On March 23, 2020, Secretary Ross appointed EDA Chief of Staff Dana Gartzke as head of the bureau, performing the delegated duties of the Assistant Secretary of Commerce for Economic Development. Mr. Gartzke is responsible for fulfilling the agency's mission of leading the federal economic development agenda. During his nine-month tenure as Chief of Staff, Mr. Gartzke worked to focus the agency on fulfilling President Trump's economic agenda by advancing critical priorities, including Opportunity Zones, disaster recovery and resiliency, infrastructure and workforce development. Mr. Gartzke joined the bureau after twenty-two years in senior staff roles on Capitol Hill.

Message from the Assistant Secretary for Economic Development

I am proud to report to Congress the accomplishments of the U.S. Department of Commerce, Economic Development Administration (EDA) for Fiscal Year (FY) 2019. EDA plays an important role in supporting locally-driven strategies designed to increase private investment and create jobs in communities across the nation, and FY 2019 included significant achievements and successes that can be attributed to the vision of our stakeholders.

Critically in 2019, EDA continued to make significant headway in dispersing the more than \$1 billion appropriated to us by Congress to assist communities impacted by natural disasters from 2017 to 2019. Our catalytic investments are not only helping communities build back but build back stronger and in a way that will ensure their future competitiveness.

We also appreciably increased our focus on supporting President Trump's Opportunity Zone incentive, which was created under the 2017 Tax Cuts and Jobs Act. The Opportunity Zone initiative fits hand in glove with EDA's mission of driving private investment to our nation's most distressed communities to improve the quality of life for those living there. Importantly in 2019, EDA added Opportunity Zones as an Investment Priority, which made them an area of additional focus for grantmaking.

In FY 2019, EDA continued to be an effective steward of the taxpayers' dollars. Based on historical averages, every \$1 of EDA infrastructure funding generates about \$15 in private investment, providing the American taxpayer with a significant return on investment.

We are proud of our work and we are honored to support our partner communities as they work to improve their economic circumstances.

EDA'S Mission

To lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy.

EDA investment policy is designed to establish a foundation for sustainable job growth and the building of durable regional economies throughout the United States. This foundation builds upon two key economic drivers - innovation and regional collaboration. Innovation is key to global competitiveness, new and better jobs, a resilient economy, and the attainment of national economic goals. Regional collaboration is essential for economic recovery and prosperity because communities that work together as a region to leverage resources and use their combined strengths to overcome weaknesses will fare better in a global economy than those that do not. EDA encourages its partners around the country to develop new ideas and creative approaches to address rapidly evolving economic conditions.

EDA'S Role

- ✧ Only federal government agency focused exclusively on economic development
- ✧ Plays a critical role in facilitating regional economic development efforts in underserved communities across the nation
- ✧ Guided by the basic principle that sustainable economic development should be locally-driven
- ✧ Builds the capacity for economic development based on local business conditions and needs
- ✧ Invests in planning, technical assistance, and infrastructure construction to leverage existing regional assets to make it easier for businesses to start and grow
- ✧ Provides flexible programs to promote new ideas and creative approaches to advance economic prosperity in distressed communities
- ✧ Provides economic development financial assistance to communities to encourage innovation and entrepreneurship

EDA Leveraging Goals for Private Sector

Section 603(b)(2) of the Public Works and Economic Development Act of 1965, as amended, requires EDA to include in its Annual Report to Congress a discussion of private sector leveraging goals set for investments awarded to (a) rural* and urban economically distressed areas; and (b) highly distressed areas.**

The following information is provided to respond to those requirements.***

(a) EDA's private sector leveraging goal with respect to grants awarded to rural and urban economically distressed areas:

In FY 2019, EDA invested 61.4% percent of its PW and EAA funds, including Revolving Loan Funds (RLF), in Rural* areas which grantees expect will leverage over \$2.7 billion in private investment; 38.6% percent of the funds were invested in Urban areas which grantees expect will leverage over \$1.8 billion in private investment.

EDA Leveraging Goals for Private Sector (*continued*)

EDA has consistently shown sound results in attracting private capital investment in both rural and urban distressed communities.

(b) EDA's private sector leveraging goal with respect to grants awarded to highly distressed areas:

In FY 2019, EDA invested 48.2% of its PW and EAA funds, including RLFs, in highly distressed areas**, which, according to recipient estimates, are projected to generate close \$3.8 billion in private investment.

EDA recognizes that importance of private capital investment for successful economic development and recognizes that importance of maintaining significant flexibility to assist those communities that are taking the first steps toward economic growth. Therefore, EDA often makes prudent investments in areas where leverage ratios are lowest.

EDA Leveraging Goals for Private Sector (*continued*)

*Rural includes investments made to Indian tribes.

**For an area to qualify as being highly distressed, one of the following criteria must be met:
(a) a 24-month unemployment rate of at least 200 percent of the national average, (b) per capita income not more than 60 percent of the national average, or (c) a catastrophic disaster.

***U.S. Department of Defense reimbursable investments and disaster supplemental investments are not included in these calculations.

EDA'S FY 2019 Highlights

- ✧ In FY 2019, EDA invested approximately \$645.8 million in 751 locally-driven economic development projects nationwide. These investments included approximately \$137.8 million in Public Works (PW) and Economic Adjustment Assistance (EAA) (regular) construction projects that communities identified as critical infrastructure enhancements to ensure their long-term competitiveness. These EDA investments incentivized close to \$116.6 million in local matching investments. Grantees expect these investments will help create or retain 27,108 jobs and generate \$4.6 billion in private investment. EDA also supported economic development planning that helped communities make informed decisions regarding their long-term economic growth.
- ✧ In FY 2019, EDA made 260 awards to regions and communities, providing them with close to \$33.6 million to develop such plans.

Notes

- ✧ The data presented in this report represent the official grant data for awards (organized by Applicant State) made by EDA in FY 2019. EDA has verified the data through a reconciliation process, conducted annually, between EDA's grant management systems and the Department of Commerce's accounting system. As such, any previously provided information regarding EDA awards made in FY 2019 should be viewed as a snapshot of the data available at the time of the data request and are subject to any changes, corrections, or updates as reflected within this report. This includes, but is not limited to, revisions to the number, dollar amount, program classification and estimated impacts of specific grant awards.
- ✧ Projects described within individual state entries are provided as illustrative examples. No project preference should be inferred from these examples. EDA uses this report to demonstrate the breadth and diversity of EDA programs and the projects which it funds.
- ✧ EDA did not have any investments in FY 2019 to Northern Mariana Islands, Federated States of Micronesia, Republic of Marshall Islands, or Republic of Palau.

In Fiscal Year 2019, EDA invested approximately \$645.8 million in 751 locally-driven economic development projects nationwide. These investments included approximately \$137.8 million in Public Works and Economic Adjustment Assistance (regular) construction projects that communities identified as critical infrastructure enhancements to ensure their long-term competitiveness. These EDA investments incentivized close to \$116.6 million in local matching investments. Grantees expect these investments will help create or retain approximately 27,108 jobs and generate \$4.6 billion in private investment.

EDA also supported economic development planning that helped communities make good decisions regarding their long-term economic growth. In FY 2019, EDA made 260 awards to regions and communities, providing them with close to \$33.6 million to develop such plans.

In FY 2019, EDA invested 61.4% percent of its PW and EAA construction funds, including RLFs, in Rural areas which grantees expect will leverage over \$2.7 billion in private investment; 38.6% percent of the funds were invested in Urban areas which grantees expect will leverage over \$1.8 billion in private investment.

In FY 2019, EDA invested 48.2% of all its PW and EAA funds, including RLFs, in highly distressed* areas, which, according to recipient estimates, are projected to generate close \$3.8 billion in private investment.

*For an area to qualify as being highly distressed, one of the following criteria must be met: (a) a 24-month unemployment rate of at least 200 percent of the national average, (b) per capita income not more than 60 percent of the national average, or (c) a catastrophic disaster.
