The EDA University Center at University of Wisconsin-Platteville will unleash the potential for UW-Platteville to cultivate innovation across the very rural southwest Wisconsin. With a strong science, technology, engineering, and mathematics (STEM) focus, thousands of student innovators, state-of-the-art labs, and top-notch researchers, UW-Platteville will provide area entrepreneurs, businesses, and economic development leaders with three easy-to-access tools.

The University of Wisconsin-Platteville University Center's support and services include:

#### DIY Connect

Our state-of-the-art University labs including 3D printing, laser cutting, metals, and plastic fabrication are opened to public use, providing a low-risk opportunity to tinker and grow.

#### The Solution Center

A one-stop-shop for low-cost, adaptive solutions. Based upon our successful Senior Design program, hundreds of student teams under faculty guidance provide low to no-cost technical assistance in product testing, design, prototyping, engineering, and more.

#### Driftless Fellowship

A faculty fellowship each year to conduct applied research to address regional economic needs, delivering the latest actionable ideas to businesses and entrepreneurs across the region.

#### Partners
